SUMMARY: Steady Hands. This is incredibly valuable information. Your transcript has been noted, and will be used to hone surveillance on the traitors. I'm sure you'll be proud to see the fall of the Faithful Company once and for all when the Fairplay arrives at the fortress of Gaunt.

I am sure you also know that what happened in Arear was a great tragedy. If it could have been stopped, the State surely would have prevented the deaths of so many innocent lives. Your part in providing us information on the movements of the Faithful Company operatives is invaluable, and could help prevent further unnecessary loss of lives of those faithful to Ilie.
